# MASTER OF TRUST AND WEALTH MANAGEMENT

Welcome to an exploration of one of the most unique graduate programs at Campbell University. In fact, Campbell's Master of Trust and Wealth Management Program (MTWM) is the nation's only degree program of its kind in the United States. Part of the Lundy-Fetterman School of Business, the Program prepares graduates to serve the financial needs of high-net-worth individuals by managing their assets and by developing and implementing sophisticated tax, financial and estate planning strategies.

## Protecting and growing family wealth for future generations.

While the Program has produced high paying jobs for many years, the future for graduates of the Trust Program has never been brighter. Over the next 20 years, the largest transfer of wealth in American history will occur as Baby Boomers pass their assets to the next generation.

On the surface it may appear that the focus of a Trust professional is solely managing assets. Graduates quickly realize the focus of their work is to help people in some of their most critical times of need. During the advisement process, a Trust professional naturally develops a personal relationship with families and individuals.

Come be a part of this exciting and rewarding profession.

**TYLER BRITTON**

Director of the Master of Trust and  
Wealth Management (MTWM) Program

Professor of Trust and Wealth  
Management, LFSB

## I invite you to pursue an exciting career in Trust and Wealth Management. The program is demanding, yet very rewarding.

Over 2,000 alumni are now working with many of the nation's premier financial institutions, including: Bank of America, Wells Fargo, J.P. Morgan Chase, Northern Trust, Truist, City National Bank/RBC and First Citizens Bank. Successful graduates can be found in nearly every major city in the United States.

There is a tremendous demand nationwide for our graduates. Over 95% are placed within one month of graduation with institutions throughout the U.S.

Trust is a very rewarding profession, both financially and emotionally. The job satisfaction of graduates of the Master of Trust and Wealth Management Program is extremely high. They are proud of their profession and excited when they have the opportunity to assist families in need of their expertise.

Prospective students might have a vague notion that Trust has something to do with banking, but they quickly realize it is about being a steward to others in the truest and best sense. In many instances they are called on to help with important life events. Trust professionals often become "a family member" to their clients.

What makes graduate students in the Master of Trust and Wealth Management Program at Campbell University appealing to the largest financial institutions in the country? They demonstrate:

- a strong work ethic
- a deep commitment to high ethical standards
- a specialized skill set in a growing profession
- the ability to work effectively as a member of a team
- a passion for helping others as a true fiduciary

I challenge you to apply for admission to the Campbell University Master of Trust and Wealth Management Program and join the "Campbell Trust Family" today.

# TRUST AND WEALTH MANAGEMENT PROFESSIONS

## What can I do with a Master in Trust and Wealth Management?

A Master in Trust and Wealth Management degree can lead to a wide variety of professions. Here are a few examples:

■ **A TRUST OFFICER** is considered a senior professional within the organization, providing team or technical supervision. The organization depends on this person throughout complex technical activities. Responsibilities include customized and sophisticated banking, investment, liquidity and credit management, tax, financial and estate planning for the affluent clients of the institution.

■ **A FINANCIAL PLANNER** prepares financial plans for clients. These plans often cover cash flow management, retirement planning, investment planning, financial risk management, insurance planning, tax planning, estate planning and business succession planning.

■ **AN ESTATE PLANNER OR TAX ATTORNEY** anticipates and arranges for the disposal of an estate during a person's life. Estate planning typically maximizes the value of the estate by minimizing taxes and other expenses. However, the ultimate goal is determined by the specific goals of the client. A knowledge of tax law, trust law and the administration of trusts and estates is essential.

■ **AN INVESTMENT MANAGER** guides asset management of various securities (stock, bonds and other securities) and other assets (e.g., real estate) in order to meet specified investment goals for the benefit of the investors. Investors may be institutions or private investors.
